Aleksandr KLJUČNÍKOV, Mehmet CİVELEK, Vladimír VAVREČKA and Václav NÉTEK: The Differences in the Usage of Social Media between SMEs operating in the Iron and Mining Industries	185
Piotr CHELUSZKA, Stanisław MIKUŁA and Jarosław MIKUŁA: Conical picks of mining machines with increased utility properties – selected construction and technological aspects	195
Agnieszka BIEDA, Monika BALAWAJDER, Artur WARCHOŁ, Jarosław BYDŁOSZ, Pavlo KOLODIY and Katarína PUKANSKÁ: Use of 3D technology in underground tourism: example of Rzeszow (Poland) and Lviv (Ukraine)	205
Michał Bernard PIETRZAK and Adam P. PALCERZAK: Selection of the set of areal units for economic regional research on the land use: a proposal for Aggregation Problem solution	222
Jahanzeb ASIM, Rizwan Raheem AHMED, Dalia STREIMIKIENE, Sarah RASHEED and Justas STREIMIKIS: Assessing design information quality in the construction industry: Evidence from building information modeling	235
Michal MARCIN, Karel DVOŘÁK, Ladislav PAŠEK, Igor ĎURIŠKA, Lucia ŠEBEŠČÁKOVÁ and Július LIŠÚCH: Comparison of mechanical properties of geopolymers from different raw materials with the addition of waste glass	252
Marek VOCHOZKA, Eva KALINOVÁ, Peng GAO and Lenka SMOLÍKOVÁ: Development of copper price from July 1959 and predicted development till the end of year 2022	262
Marinko SKARE, Małgorzata PORADA-ROCHON´ and Sanja BLAZEVIC-BURIC: Energy Cycles: Nature, Turning Points and Role in England Economic Growth from 1700 to 2018	281
Anna BURDUK, Dorota WIĘCEK, Vladimír TLACH, Zuzana SÁGOVÁ and Joanna KOCHAŃSKA: Risk assessment of horizontal transport system in a copper mine	303
Marcin LUTYŃSKI, Beata GRYNKIEWICZ-BYLINA, Bożena RAKWIC and Jacek NOWAK: Content of rare earth elements in basalt aggregate from Winna Góra, Poland	315
Konstantin MAIOROV, Natalia VACHRUSHEVA and Alexander LOZHKIN: Solving problems of the oil and gas sector using machine learning algorithms	327
Andrzej PYTLIK, Jarosław TOKARCZYK, Witold FRĄC and Dariusz MICHALAK: Explosive atmosphere ignition source identification during mining plant suspended monorail braking unit operation	338
Dan-Mircea MIHALEA, Gheorghe ȘERBAN, Ruth PERJU and Iulia-Nicoleta LUPU: Hydrotechnical arrangements influence on morphological and hydrological characteristics of Crișul Negru River and its tributaries - Western Apuseni Mountains, Romania	352
Péter PECSMÁNY, András HEGEDŰS and János VÁGÓ: DEM based morphotectonical analysis of the Kisgyőr Basin (Bükk Mts – Hungary)	364
Vladimír ČECH, Bohuslava GREGOROVÁ, Pavel HRONČEK and Anton FOGAŠ: Caves of the Low Tatras National Park and Its Neighbourhood as Objects of Speleotourism	375
