

Contents

Mahmoud MOTASIM, Tevfik AGACAYAK, Mohammed FATHALRHMAN, Eltahir ELHADI, Amin El-GAK, Abdelshakour AWDEKARIM and Ahmed Abdullah Sadeek SEIFELNASR: The potential of Sudanese Refractory Gold Ores Characterization and Pre-treatment in Ariab Mines (VMS) in Red Sea (Sudan)	265
Naveed REHMAN, Aman ULLAH, Syed Haroon ALI, Noureen SHOUKAT, Syed Muhammad IBAD, Ali WAHID, Yasir BASHIR, Mubashir MEHMOOD and Bilal AHMAD: Eocene Kohat Formation suitability as an aggregate from Kohat Range, Sub-Himalayas, Pakistan, based on outcrop, petrographic and geotechnical properties	277
Michal VOKURKA, Pavel ZAPLETAL and Petr KRŽÍŽ: Disposal of the Abandoned Mine Workings of Uranium Mines – Case Study of Rožná I Mine, Czech Republic	289
Omar AL HATTAMLEH, Abdulla SHARO, Laith ABU SHANAB, Hussein ALDEEKY and Reyad AL DWAIRI: Effect of the quasi rate of loading in Particle Crushing and Engineering Properties of Black Tough Sand	301
Jaromír VRBKA, Tomáš KRULICKÝ and Veronika ŠANDEROVÁ: Relationship between Variations in Valuation Methodologies: Evidence from Polish Construction Market	314
Nilufer KURSUNOGLU and Mustafa ONDER: Coal and Gas Outburst Risk Assessment Using Cluster Analysis Method	325
Anna SOŁTYS and Dariusz CHLEBOWSKI: Methodology of designing blasting works in open pit mining in terms of their impact on construction objects	344
Katarzyna STANIENDA-PILECKI: X-ray diffraction as a highly selective and sensitive tool for the identification of Mg-rich carbonate phases in terms of the limestone with magnesium practical application	358
Lazat KREBAYEVA, Sapargali KONUSPAYEV and Dmitry MURZIN: Catalytic cracking of heavy hydrocarbons on modified natural zeolite of the Shankanai deposit (Kazakhstan) with heteropoly acids	373
Mustafa NAİMOĞLU: Exploring Nuclear Energy and Environment Interaction in Pakistan Using the Fourier ARDL	382
Miriám ANDREJIOVA, Anna GRINCOVA and Daniela MARASOVA jr.: Analysis of the development of energy consumption of electricity and fuels in Slovakia	394
Andrzej PACANA, Dominika SIWIEC, Lucia SPRINC and David KRASNICI: Simplified model supporting decision-making considering the criteria of sustainable development and life cycle assessment (LCA)	408
Martin ŠALKOVIČ, Jakub HAJDUK and Eva PAUDITŠOVÁ: Selection of the variant of highway based on the territory susceptibility to landslides – model area D1/R3 highway nearby Oravský Podzámok	424
Marinko SKARE, Sanja BLAŽEVIČ-BURIC and Dean SINKOVIČ: Persistence in International Energy Prices 1960-2023	437
Havvanur UCBEYIAY and Sedat ARSLAN: Improving the dewatering performance of red sludge with alternative methods in Eti Aluminum Plant in Seydisehir, Konya province, Turkey	452

- Stojance MIJALKOVSKI, Dragi PELTECHKI, Zoran DESPODOV, Dejan MIRAKOVSKI, Vancho ADJISKI and Nikolinka DONEVA:** Application of the FUZZY TOPSIS method for selecting an underground mining method **465**
- Alžbeta SUHÁNYIOVÁ, Jaroslav KOREČKO and Ladislav SUHÁNYI:** Renewable energy sources management in the EU-27 countries **479**
